

THANN

Company: Thann-Oryza Co, Ltd

Designer: Tony Suppattranont

THANN is an art of Asian culture, natural therapy, and modern dermatological science bred in Thailand. It utilises the natural resources at its doorstep and makes full use of Asian botanicals.

Extracted from *Oryza sativa*, a unique strain of Thailand's harvest for over 5,000 years, Vitamin E-rich rice bran oil is the core ingredient for THANN products. In 1999, two Thai entrepreneurs envisioned the potential of spa and teamed up selling Asian-inspired natural home spa products under the name Harnn. Three years later, they went on establishing Thann-Oryza Co, Ltd to manufacture natural skincare products under the name THANN.

Today, THANN products and concept shops spring up in renowned spas and hotels in more than 30 countries worldwide.
