Up on 3,200 metres at Shangri-la in Yunnan, Banyan Tree Ringha brings together man, beast, and nature.

Based on the Banyan Tree Group's philosophy, Banyan Tree Ringha offers its guests a home of Nature in form of a stylish, comfortable hideaway. The delicate balance among business, social responsibility, economic revitalisation, and cultural preservation is no coincidence.

The painstaking reconstruction works involve dismantling and reassembling the old Tibetan houses to a specific type of furnishing and furniture. All the works were done manually and systematically in order to retain the unique character of each farmhouse. Today, the 15 one-bedroom suites, 11 two-bedroom lodges, and six exquisite spa suites evoke a feeling of legends, romance, and mysticism, all in true Tibetan style.
